### Aspect (3): Streaming Environment

#### **Module 8: Easy learner requirements: Technical and organizational requirements for learners**

Module 8 is about technical equipment for learners. There are 3 technical requirements for being able to participate in class.

- 1) Device
  - a. Nowadays, there is a number of possible devices you can use to participate in class.
  - b. For example: computer, laptop, tablet, mobile phone.
  - c. Make sure you choose the one device you feel most comfortable working with.
- 2) Internet connection
  - a. Make sure you have a reliable internet connection throughout your participation in class.
- 3) Registration on a conferencing tool or streaming platform
  - a. There are different conferencing tools and streaming platforms to work with in class.
  - b. For example: Windows Teams, Zoom.

If you fulfill the 3 requirements, let's have a look at "Twitch".

Twitch is a life streaming platform for all kinds of topics. Creators and the ones who watch, build a community of their own. They come together regularly, to interact with each other or to just look at what is new.

[\(https://www.twitch.tv/p/en/about/\)](https://www.twitch.tv/p/en/about/)

## Task 1

With having this in mind, what are you interested in and would be happy to live-stream? Follow the link above and look at the topics they offer.

You should find the list on the right.

Please choose a topic.

Figure 1: <https://www.twitch.tv/p/en/about/>

## Task 2

Please choose a life-stream-video and watch it for a few minutes.

- What do you see?

- Why do you think the person chose to do this stream on this particular

### Task 3

Please think about at least three positive and negative aspects of life-streaming in general and in school. You can fill in the following chart.

Life-streaming in general	
positive	negative
Life-streaming in schools
